

RokBox 2007

Rokbox 2007

27/10/2006

Dear Customer

Herewith we would like to forward you our new offer relevant to the 2007 Rok Box and Super Rok Box. The promotional package will include: a complete TonyKart chassis with 125cc Vortex-Rok or 125cc Vortex-Super Rok engine and Bridgestone tyres.

All the chassis proposed with the Rok- or Super Rok- Box are CIK-FIA homologated, and this year we suggest the following models with both the engines: Racer EVX, Racer EVS, Krypton KRV, and Krypton KR

Referring to the Mini Rok BOX, we are going to suggest the Rocky 2007 and Rocky EXP2 for this year.

In the summary hereby attached, you will find all the information relating to the price. You will also find all the details about the technical features of the chassis.

For any further question, we remain at complete disposal.

Best Regards,

Strawberry Racing
